Dear Sirs,

The bromide photographs arrived this week, and I sent off the set you wished to have returned with the plate numbers duly marked. The other set I am keeping and am hurrying on with the inscriptions to be printed with each plate. I will send these and the introduction as soon as possible.

Can Plate XIX, Nos 20 & 34 not be made a little more distinct ? It is difficult to distinguish the figures on it. The other plates made from photographs are much clearer.

Yours faithfully,

University Library Cape Town
