Dear Miss Bleek.

I am returning herewith the documents you sent me.

1. I think you should make it clear that your Memorandum is not only "accompanying" the application, but is more specifically in "amplification" of paragraphs 4 & 3 and 5 of the printed form of application.
2. It will ~~be~~ be useful if you also mentioned that the Research Grant Board has helped you in the past in publishing some of your work, as I understand it is the policy of the Board to help those it has helped before.

Give them details-

3. I am enclosing my own recommendation. Duke told me you would receive his in "a day or two". Enclose both with your application & other documents to the Board and add that you are sending three recommendations straight to them in order to save time.

4. I may be able to take other steps ^{which are not to be mentioned now} which I will only mention to you, at a later stage.

With best wishes for the success of your application

Yours very sincerely
