Albany Museum,

Grahamstown,

South Africa.

Dear Miss Bleek

Several days ago Miss van d. Rich showed to me the color sketches she had made of the paintings at Bronley in this district & she asked me to write you my judgment thereon.

I have pleasure in recommending them. There is great fidelity in these copies & they are better than my own.

I do hope she will continue this work as the Wilton series of this district is well worth it. As far as possible I also take photos of the originals but more often than not the circumstances

are unfavourable : in any
case photography is only supplementary
to the work of an artist.

With kind regards

Yours sincerely

John Heurt
