GRAHAMSTOWN.

13th February, 1939.

Dear Miss Bleek,

I must apologise for not having acknowledged your letter before this but I waited to answer, until I could tell you the plates had arrived safely, which they did two days later, unfortunately by that time I was inundated with work and could not do so immediately.

I think when Joyce and I put our heads together we will be able to give you a very fair description of the physical features of each district, and the locality - site - and description of the plates, which we will be very pleased to do.

Joyce is at present living in Port Elizabeth but will come up for a few days in order to complete the Texts with me. I am sure we will be able to borrow a copy of Rock-Paintings in S.A. as we have done so before, it will certainly be a great help.

It would also be helpful if you could let us have the letters Joyce wrote at the time we did the paintings, unfortunately did not keep copies of them - they would refresh our memories considerably, the local caves we can visit again if necessary.

I think the sketches have reproduced remarkably well and when the texts are completed ought to make a most interesting book.

Mummie is most excited about it and full of suggestions, she went with us on the Oudtshoorn trip and quite a number of local ones.

*Yours Sincerely in haste
Hollie van der Merf*
