1870s?

Dear Madam,

I return the
plants you sent & regret
that I can only name
one as marked on
the ticket

Most of the others are
insufficient

With reference to the
Folklore Socy of which I
duly recd your circular, I
should like to become a mem-
ber if by doing so I am not
subject to any other condition
than that of taking a general
interest in the subject &
subscribing 4/ per annum
towards the publications.

to avocations do not
permit of my doing
more

Yours truly

Henry Poling

P.S. - It may be desirable
that you should know
that the *Trifolium angustifolium*
Lk. I have named is not
an indigenous plant - but
one introduced, (probably by
the earlier settlers) from
Southern Europe & now natur-
alised.
